Roberson's 2018

SUMMER CAMPS

June 25 - August 31

Roberson Museum and Science Center is a truly unique venue which houses the region's only Digital Planetarium, several activity labs, and multiple art galleries. Our dynamic summer camps are a direct reflection of our venue; they provide an unmatched educational experience for our area's youth through our focus on art, history, science and technology which are sure to expand your child's mind. Lead by a team of experienced and talented educators, your child will have summer camp experiences that they will not forget, filled with fun and adventure.

When selecting age-appropriate camps for your child, please note that the beginning grade is based on the grade your student will enter in the Fall. We provide all materials needed for activities. Campers should bring a bagged lunch. Camps run from 9 am through 3 pm. For your convenience, we offer before (8 am - 9 am) and extended after camp care (3 - 5:15 pm) for a nominal fee of \$30 per week.

Pre-registration and a minimum number of participants for each camp is required. In the event that a camp is canceled, parents will be notified a week in advance. If your child has special needs, please let us know when registering your child as to discuss appropriate accommodations.

For full camp descriptions, visit roberson.org
