

## **AHERA Notification**

The Harpursville Central School District has completed the inspection of its facilities to determine if asbestos is present and if any action is needed to avoid potential health hazards.

A management plan has been developed in compliance with the Asbestos Hazard Emergency Response Alert (AHERA) to insure that the school district continues to provide and maintain a safe environment for students, employees and visitors. The plan includes:

- Training of maintenance staff to prevent disturbance of asbestos
- Provisions for periodic re-inspection and surveillance, provisions for abatement activities performed by trained personnel

Annually school districts are required to notify parents, teachers, and employee organizations of the availability of their management plans. A copy of the management plan is available for inspection at the Main Office of each school building as well as at the Business Office of the school district. Any questions regarding this matter may be directed to Dave Johnson, director of facilities, at 693-8121.
