SUMMARY & BACKGROUND

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund. The ARP Act requires that a minimum of \$8.09 billion (90 percent) be allocated to LEAs, including charter schools and Special Act School Districts that are LEAs. Pursuant to the terms of the ARP Act, LEA allocations have been calculated using the relative shares of grants awarded under Title I, Part A of the ESEA for the most recent federal fiscal year (2020). Each eligible LEA's ARP-ESSER allocation may be found [HERE](#).

Under section 2001(d)(2) of ARP Act of 2021, each State Educational Agency (SEA) must make ARP-ESSER allocations to LEAs in an expedited and timely manner and, to the extent practicable, not later than 60 days after the SEA receives its ARP-ESSER funds. The first portion of ARP-ESSER Funds was awarded to states on March 24, 2021, and 60 days from that day is May 24, 2021. The U.S. Department of Education (USDE) has taken the position that an SEA makes allocations when it authorizes the LEA to begin to obligate funds in accordance with its needs. To enable New York State's LEAs to begin to obligate ARP-ESSER funds by USDE's May 24, 2021 deadline, the application for LEA 90% base ARP-ESSER allocations is being administered by NYSED as a two-part application process:

•ARP-ESSER Application – Part 1

•ARP-ESSER Application – Part 2

The ARP Act requires LEAs to reserve at least 20% of their 90% ARP-ESSER allocation to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on economically disadvantaged students, children with disabilities, English learners, racial and ethnic minorities, migrant students, students experiencing homelessness, and children and youth in foster care. For your information, the minimum 20% reservation for each LEA may be found [HERE](#).

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated by October 31, 2024.

Project Number

The project number stem for the program is:

ESSER: 5880 - 21 - XXXX

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by August 31, 2021 (with extensions by request), and will be reviewed on a rolling basis.

Please note that applications must be submitted and fully approved by no later than March 23, 2022. LEAs that have not been issued a Grant Award Notice by that time will be at risk of having their ARP-ESSER allocation returned to the United States Department of Education.

APPLICATION PROCESS FOR LEA ALLOCATIONS OF ARP-ESSER SEA RESERVE FUNDS

The federal ARP statute requires SEAs to reserve:

- not less than 5 percent of the total amount of grant funds awarded to the State (\$449.4 million) to carry out activities to address the impact of lost instructional time by supporting the implementation of evidence-based interventions;
- not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based summer enrichment programs; and
- not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based comprehensive afterschool programs.

The 2021-22 enacted state budget directs that these required SEA set-asides be allocated as grants to specified school districts. Each eligible district's allocation of SEA reserve funds may be found [HERE](#). NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the SED Monitoring and Vendor Reporting System. This application is only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.

Title VIII of Division B of the CARES Act directs the Department to carry out the Education Stabilization Fund, of which the ARP ESSER funds are a part. Section 2001 of the ARP Act provides for the Department to make grants to each SEA from the ARP ESSER funds. An SEA must allocate at least 90 percent of its ARP ESSER grant funds to its LEAs (including charter schools that are LEAs) in the State in the same proportion that the LEAs received under part A of title I of the ESEA in Fiscal Year 2020, as required by section 2001(d)(1) of the ARP Act; and section 2001(e) of the ARP Act prescribes certain mandatory and permissive uses of LEAs' funds. Under 20 U.S.C. 1221e-3, the Secretary has the authority to promulgate rules governing the programs administered by the Department. Under this requirement, each LEA that receives ARP ESSER funds must develop, submit to the SEA on a reasonable timeline determined by the SEA, and make publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds. The plan - known as the LEA ARP ESSER Plan - and any revisions to the plan submitted consistent with procedures established by the SEA, must include a description of key activities which are required below.

NYSED will consider each LEA's application for its base 90% ARP-ESSER allocation as meeting the USDE LEA ARP-ESSER use of funds plan requirement, provided the required elements of the plan are fully addressed in the LEA's application, combined with a budget, and then publicly posted after being developed with public input.

An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); and teachers, principals, school leaders, other educators, school staff, and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

Each LEA's ARP ESSER plan must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

1. In the space provided below, please describe how the LEA meaningfully engaged a diverse and representative set of the applicable stakeholders in developing a plan to use these funds and implementing that plan.

The LEA provided a survey to the community that allowed them to give specific suggestions about how they felt the federal grant funds would best support the students and community. Several Board of Education meetings were used as a forum to allow stakeholders to get information and give feedback. The district shared decision making team and school teams also created opportunity for discussions about the use of federal funds.

Throughout the 21-22 school year the district will provide opportunity for the community to give their feedback.. In March of 2022 the community will be asked to participate in a Google survey to give feedback on the programs that are being supported by this funding. At the end of the school year in June of 21-22 the community will ask to participate in a Thoughtexchange to offer feedback on the successes and challenges of the 21-22 school year and their expectations for next steps.

2. In the space provided below, please provide the URL for the website(s) where the LEA ARP-ESSER Plan is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.

When people request to see the ARP ESSER plan, FS10 and Budget Narrative they will be provided a link to the plan or a paper copy if they are unable to access the digital link. They may also request copies of the Budget Narrative and FS10 from the business office by calling 607-693-8120 or by emailing jjmclaughlin@hcs.stier.org.

3. **In the space provided below, please describe the extent to which and how the funds will be used to implement prevention and mitigation strategies that are, to the greatest extent practicable, consistent with the most recent CDC guidance on reopening schools, in order to continuously and safely open and operate schools for in-person learning.**

Our reopening plan addresses our ability to stay open and get as many students here as possible. We will be using the funds to purchase devices to improve in-person and online learning. We will always follow CDC guidance and the guidance of the state and local health department. We are also using funds to purchase and install air conditioning to help improve the temperature and quality of the air in the schools.

4. **In the space provided below, please describe the data that the LEA will use to identify student needs and monitor student progress as a result of planned interventions and supports.**

The district will be using multiple measures to identify student needs and to monitor student progress. i-Ready will be used as a diagnostic for both reading and math in grades K-8. This platform will also be used three times each year to monitor progress. Essential standard assessments were created and given for each grade level and course, data analyzed, and instructional plans and interventions created for each student. Common formative assessments will be given approximately every two weeks and interventions implemented and monitored via Ed Puzzle, Padlet, and Common Lit. In order to maintain consistency for students who are learning remotely or in person it's necessary for the district to update technology in the classrooms (desk tops computers, Promethean Boards, laptops).

5. **In the space provided below, please describe how the LEA will use the funds it reserves under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year.**

Math and ELA positions will be created at the elementary and junior senior high levels to provide coaching to teachers to mitigate learning loss through instructional strategies and alignment. These positions will also provide interventions as determined by on going progress monitoring and assessments. The results of the i-Ready diagnostic will identify those students who are below expected levels in reading and math. Students will be placed in small intervention groups based on their scores. Teachers will design interventions and consistently assess progress (tracked on the shared data sheet on the District's Google Site). Teachers will also continue to employ a continuous improvement cycle to identify students in need of Tier 2 interventions through formative and summative assessment. Updated technology in the classrooms (Promethean Boards, desk top computers, laptops) will allow instruction in the classroom to be accessed both by in person students and those who are remote. The continued use of a Professional Learning Community structure will allow for the analysis of student data and progress monitoring of student learning. The use of apps such as Padlet, Ed Puzzle, and Common Lit will provide consistent student engagement with instruction both in person and on line as well as a way to assess students continuously.

6. **In the space provided below, please describe how the LEA will spend its remaining ARP ESSER funds consistent with section 2001(e)(2) - the allowable uses of funds - of the ARP Act.**

The majority of our funds will be used for improving air temperature and quality. We will also be funding teaching leadership positions to address learning loss and devices to improve the learning experience.

7. **In the space provided below, please describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

Data will be collected about every two weeks through formative assessments to reflect on tier 1 instruction and intervention implementation. Teachers will be sharing data and implementation of interventions weekly at PLC meetings. The Restorative Practices facilitator will be working with teachers and students PK-12 to monitor and plan for student needs providing students with strategies and resources to meet their needs. Ongoing monitoring will continue through student surveys and screening devices that will be analyzed by the district's pupil personnel team. Students from low income families make up 67% of our student population, 24% of our students have been classified with a disability, and many of our students live in local foster homes and we have about 5% of our students labeled as homeless. These vulnerable populations make up a large percentage of our students. These students are identified as at risk students in our Schooltool Student Management System. Counselors, and teachers check on these students one on one both academically and in regards to social emotional well being. Teachers fill out forms during PLC meetings with specific academic information and SEL. Students are scheduled to work with teachers and counselors on particular days each week depending on their specific academic or social need. Many of our homeless students receive specially scheduled transportation in order to get them to school.

ARP-ESSER Return to In-Person Instruction

HARPURSVILLE CSD

Section 2001(i)(1) of the ARP Act requires each LEA that receives ARP ESSER funds to develop and make publicly available on the LEA's website, not later than 30 days after receiving ARP ESSER funds, a plan for the safe return to in-person instruction and continuity of services for all schools, including those that have already returned to in-person instruction. Section 2001(i)(2) of the ARP Act further requires that the LEA seek public comment on the plan and take those comments into account in the development of the plan. Finally, section 2001(i)(3) of the ARP Act states that an LEA that developed a plan for the safe return to in-person instruction and continuity of services prior to the date of enactment of the ARP Act will be deemed to have met the requirement to develop a plan under section 2001(i)(1) as long as the plan meets the statutory requirements (i.e., is publicly available on the LEA's website and was developed after the LEA sought and took into account public comment).

The LEA's plan must include how it will maintain the health and safety of students, educators, and other school and LEA staff and a description of any policies it has adopted regarding each of the CDC's safety recommendations, including universal and correct wearing of masks; modifying facilities to allow for physical distancing (e.g., use of cohorts/podding); handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improving ventilation; contact tracing in combination with isolation and quarantine in collaboration with the State, local, territorial, or the health departments of Native American Nations; diagnostic and screening testing; efforts to provide vaccinations to school communities; appropriate accommodations for children with disabilities with respect to health and safety policies; and coordination with State and local health officials.

The plan must describe how the LEA will ensure continuity of services, including but not limited to services to address students' academic needs and the social, emotional, mental health and other needs of students and staff, which may include student health and food services.

LEA plans must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

NYSED will permit previously developed LEA re-opening plans to satisfy the ARP statutory requirement for the safe return to in-person instruction and continuity of services. LEAs must make any necessary updates to existing plans to conform with the USDE requirements within 30 days of receipt of ARP-ESSER funds and to review (and revise if appropriate) plans every six months thereafter (until September 30, 2023).

- 1. In the space provided below, please provide the URL for the website(s) where the district's most current re-opening/return to in-person learning plan is/will be located. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

2. An LEA must periodically, but no less frequently than every six months (through September 30, 2023), review and, as appropriate, revise its plan. Consistent with section 2001(i)(2) of the ARP Act, which requires an LEA to seek public comment on the development of its plan, an LEA must seek public input and take such input into account in determining whether to revise its plan and, if it determines revisions are necessary, on the revisions it makes to its plan, i.e., the LEA must seek public input on whether to revise its plan and on any revisions to its plan no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools). If the LEA revises its plan, the revised plan must address each of the aspects of safety currently recommended by the CDC or, if the CDC has updated its safety recommendations at the time the LEA is revising its plan, each of the updated safety recommendations.

In the space provided below, please describe how the LEA will review and regularly update (at least every six months through September 30, 2023) it's plan for in-person instruction, including a description of how public comment will be collected.

The district will discuss the plan as needed with the Board of Education and the public at Board of Education meetings.

The LEA provided a survey to the community that allowed them to give specific suggestions about how they felt the federal grant funds would best support the students and community. Several Board of Education meetings were used as a forum to allow stakeholders to get information and give feedback. The district shared decision making team and school teams also created opportunity for discussions about the use of federal funds.

Throughout the 21-22 school year the district will provide opportunity for the community to give their feedback.. In March of 2022 the community will be asked to participate in a Google survey to give feedback on the programs that are being supported by this funding. At the end of the school year in June of 21-22 the community will ask to participate in a Thoughtexchange to offer feedback on the successes and challenges of the 21-22 school year and their expectations for next steps.

PLEASE NOTE:

The Office of Facilities Planning, in collaboration with NYSED's Chief Financial Officer and the Office of ESSA-Funded Programs, is developing guidance regarding capital construction projects based on the United States Department of Education (USDE) recently issued FAQs for this federal program. The Use of Funds FAQ (released May 26, 2021) may be of particular interest, since it discusses construction and combination of funds. Links to the federal program website are below:

Local Educational Agencies (LEAs) which intend to do federally funded work using ARP-ESSER funds must first file FS-10s and other documents as required by the Office of ESSA-Funded Programs. If a project would normally require a building permit if supported by state/local funds, it must also have a building permit if supported by federal funds (or a combination of funding streams). Facilities Planning forms are under development at this time.

1. What is the amount of funds that the LEA plans to use for construction related projects?

2,010,000

2. In the space provided below, please described the planned construction activities and costs.

We plan to add air conditioning to our Jr/Sr high school and Elementary School. By improving the air quality, temperature and flow, we hope to improve the educational experience for our students and staff.

3. Will the planned construction impact and/or effect any district, site, building, structure, or object that is: Included in the National Register of Historic Places; or Eligible under criteria established by the Secretary of Interior for inclusion in the National Register of Historic Places?

No, the planned construction will not impact and/or effect any district, site, building, structure, or object that is: Included in the National Register of Historic Places; or Eligible under criteria established by the Secretary of Interior for inclusion in the National Register of Historic Places.

ARP-ESSER LEA Base 90% Allocation - Budget

PLEASE NOTE - the FS-10 and Budget Narrative are used to provide NYSED with a specific itemization of proposed project expenditures and to provide NYSED and the Office of the State Comptroller with the necessary documentation upon which payments can be based. FS-10s with missing quantities or unit costs, or with terms such "TBD" or "Varies" cannot be accepted on the FS-10 or Budget Narrative forms.

Please note: LEAs that have been allocated funds from the mandated SEA-Level Reserves in the 2021-22 enacted state budget will apply for those funds via a separate application process. NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the SED Monitoring and Vendor Reporting System. The sections below are only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.
