December 2018

A trip back in time

By Kim Rusnak, social studies teacher

In November, students in 11th grade US History and Government class took a trip back in time to experience life in a rural setting and town during the 1840s.

The Farmers' Museum in Cooperstown enabled students to engage in activities that illustrate the technology of the era. Workshops included farmhouse cooking over an open fire, pharmacy, stitching, blacksmithing, papermaking and reverse glass painting.

Students were extremely receptive to the docents' information on their craft during the tour. The staff at the Farmers' Museum was thrilled with the excellent behavior and interest level of these juniors.

A message from the superintendent

"We can feel

extremely

proud of our

students for

their work."

Dear residents,

I'm sure you'll agree that it has certainly felt like winter these past few weeks, even though it's not officially the winter season yet. It looks like we're in for a real treat this year.

Regardless of the weather, this is always an exciting, albeit busy, time of the year as we bounce from one holiday to another. I hope you had a wonderful Thanksgiving and that you're looking forward to the winter holidays.

During these seasons of giving thanks and gift-giving, it seems appropriate to extend a warm thank you to the

school community for its continued support of our district's children and their education. On a similar note, on behalf of all of us here at the school, we want to thank our families for allowing us the privilege to work with their most precious gifts, their children. We are appreciative of the opportunity and are honored to be able to have a positive impact on the education and lives of the children we work to serve. It's always nice, too, when we see the students take the opportunity to give back just a bit.

Once again, the National Honor Society students and the Jr. Sr. High School Student Council served nearly 60 members of our local Senior Center of Eastern Broome at the annual Thanksgiving Luncheon. For this event, many of our senior citizens rode our school buses down to the elementary school where one of the gymnasiums was transformed into a dining room. The

students served the meal, cleaned up dishes, and greeted our guests during the luncheon. At the same time, faculty and staff provided donations of food items or money to be given to the local food pantry. This is an excellent example of community spirit as well as a sense of giving and service, and what better time of the year than the holiday season to have an events such as this. We can feel extremely proud of our students for their work.

Speaking of our students showing off their work, please be reminded of the winter concerts coming up over the next month or so. The concerts are always enjoyable events and a nice time for our students to showcase their musical talents. Our instrumental band concert is scheduled for 7 p.m. Monday, December 17, and the chorus concert will be held at 7 p.m. on Monday, January 7. Both events will be in the Jr. Sr. High School auditorium. So, come down to the school to hear some great music and enjoy the holiday season with our students.

We wrapped up our fall sports season last month and quickly transitioned to get our winter sports off and running. We constantly strive to ensure that our student-athletes are successful both in the classroom and in their contests. You'll be pleased to know that the following teams earned scholar-athlete awards this past fall: golf, volleyball, soccer, field hockey, cross-country, and cheer. This means that at least 75 percent

Michael Rullo, Superintendent

of the students on each team had an overall average of 90 percent or higher. That is so impressive! Please join me in congratulating our student-athletes and, if you have the chance with one of the team members, let them know just how important you think it is that they are excelling in the classroom and in their sport.

Switching gears just a little bit, we continue to discuss a proposed capital project and the continual updating of our fleet of transportation vehicles at our regular board of education meetings. These are exciting, transformative, and important processes for the district. Please know that you are always welcome to attend the meetings to hear information and/or ask questions about these matters. Furthermore, we are providing updated information on our website (www.hcs.stier.org) to ensure

that everyone has access to the information shared whether or not you are present at the board meetings.

As always, if you have any questions or comments about either initiative, please be sure to contact me at 693-8112. I am happy to speak with you.

In closing, I would like to wish each and every resident a wonderful holiday season with your family and friends. I hope it's a season marked by many, many blessings.

Yours in education,

Michael J. Rullo

Go Hornets!

A message from the director of instruction

Dear Harpursville community,

The past few years we have been working hard at helping our students develop a growth mindset. This requires students to believe they can learn anything as long as they work hard, try various strategies and accept input from others. In the process, they may fail, but this failure can help them gain an even better understanding in the end.

It is often in math class that we hear students say things like, "I am just not good at math." They seem to think that some people are good at math and some people aren't. Staff members at HCS do not believe this is true. We have researched this topic at length and believe ALL students can be strong in math. Students just need to work hard,

try various strategies, be open to ideas from others, not be afraid to fail, and believe in themselves.

Of course, we believe this to be true in all subjects and would love your help in promoting this mindset. We'd love to ban the phrase, "Well, I wasn't good at math either." This phrase allows children the opportunity to not persevere through a problem, but to just give up. Something we feel is detrimental to their growth.

(Here is a link to learn more. https://www.youtube.com watch?v=0tqq66zwa7q)

This time away from school provides a great opportunity for extra time with family and friends, playing outdoors,

and cozying up with some great books. However you and your family choose to spend this time, we want to take a moment to wish you all the best this holiday season. We hope you and

Pam Horton,

Director of Instruction

yours enjoy some special time together during the break, and we look forward to welcoming our students' bright, shining faces back to school in 2019.

Happy Holidays,

Pam Horton,
Director of Instruction

The W.A. Olmsted student counselor conducted a sock drive to commemorate October as "Socktober." The program is supported by Soul Pancake and Kid President all around the U.S., collecting socks for the estimated 600,000 people that live on the streets. The 83 pairs of socks we collected have been donated to the Children's Home in Hillcrest.

Harpursville Central School District directory

No disappointments with this field hockey team

By Cheryl Hamilton, coach

The expectations were high and the players did not disappoint - this team had a great season.

This year's field hockey team was comprised of many experienced players, including eight seniors. They ended the season with a 13-4-1 record, but that does not tell the whole story. We would like to share many of the accolades this team achieved.

The season started with Sidney Summer League where the girls started to believe that they could play with anyone if they put their minds to it. Then the annual field hockey summer camp session prior to the season and a preseason where they set the ground work to start off the season with a very good scrimmage at Greene.

Then for the season: Let's first talk about

the losses. They had an early season tough loss to Maine-Endwell (2018 Class A state champion), two one-goal losses to Afton, who lost in the state semi-finals in Class B and then lost the sectional finals match to Whitney Point, which this year won their fifth straight state title. The only other blemish was a tie that came on a day with a torrential rain storm ending the game at a 1-1 halftime score with Deposit/Hancock (who they out-shot 13-2).

This was truly a team on both the offensive and defensive sides with everyone contributing. The Lady Hornets scored 62 goals and gave up only 16 on the season, averaging less than 1 per game. The team had 329 shots and allowed only 104. They shut out 10 opponents and gave up only one goal five other times. Four players scored at least 10 goals, led by

sophomore Shyanne Stilson with 12, senior Aubrey Cluck with 11, senior Sarah Peterson and freshman

Makenna Lowe with 10. They had 30 assists, led by Makenna Lowe's 10, senior Morgan Flemings six and Sarah Peterson's five.

The defense was led by senior Vanessa Groover, who played goalie all year giving up less than a goal per game while logging 75 saves. The defense was anchored by seniors Kaitlyn Ellsworth, Abby Kelly and Makenzie Robertson, sophomore Olivia Weist, freshman Kayleigh Cluck and sophomore Ally Kelly.

The rest of the team was comprised of dedicated subs who were led by juniors Yasmine Warner and Alysia Dunaway, senior Andrea Austin, and two JV

> players who came up for the playoffs, freshmen Lexi Hosmer and Brandi Thorne.

The team also won the Section IV Sportsmanship Award for the second time in five years. This award (one team in Section IV) was presented to our team at the Senior Classic Game by the Section IV officials, in which Sarah, Aubrey, Morgan and Vanessa were selected to play and represented the Lady Hornets very well.

The team also won the Sidney Field Hockey Tournament, shutting out both opponents and

continued, next page

Pictured (I-r): front - Vanessa Groover, Brandi Thorne. Middle - Yasmine Warner, Makenna Lowe, Andrea Austin, Abby Kelley, Sarah Peterson, Ally Kelley, Aylisia Dunaway. Back - Aubrey Cluck, Mackenzie Robertson, Morgan Fleming, Kaitlyn Ellsworth, Olivia Weist, Shyanne Stilson, Lexi Hosmer, Kayleigh Cluck

From page 4

only allowing two total shots on goal. Makenna, Sarah and Morgan were named to the All-Tournament team. The Lady Hornets were also well represented in the Division II All-Stars with the following players receiving recognition:

1st Team: Sarah Peterson, Morgan Fleming, Olivia Weist, Shyanne Stilson and Makenna Lowe

2nd Team: Mackenzie Robertson, Vanessa Groover and Aubrey Cluck

At the year-end banquet, the following players received awards:

MVP- Sarah Peterson (her 3rd straight MVP award)

Most Improved- Kaitlyn Ellsworth

Unsung Hero Award -

Vanessa Groover

Coach's Award – Makenna Lowe, Shyanne Stilson and Olivia Weist

This team was known for great passing, teamwork and hustle. We will miss our seniors and there is plenty of opportunities for players in our JV and modified programs to compete at the varsity level next year. We also welcome anyone back to the program to join our hockey team and soon we will have information on the indoor season where girls can develop their skills.

Last but not least, the Lady Hornets would like to thank the following: Mr. Dalpiaz, for coming out of retirement and being a part of the

program; Danielle Maxim, for coaching the modified team; Mrs. Peterson, who with help from many other parents provided snacks and meals for the girls; Mr. Lyon and Mr. Quick, who made sure the team had everything necessary to have a successful season; Mr. Craig Johnson, for mowing the fields. Also, thank you to Bernie Scott for organizing a great send-off on the day of the sectional final game.

October 'Athlete of the Month' awards

Congratulations to Morgan Fleming and Brandon Hoover

By Jason Lyon, athletic coordinator

Congratulations to Morgan Fleming and Brandon Hoover for being named the Harpursville Athlete of the Month for October 2018.

Kristie McWherter from Farmers Insurance, along with Athletic Coordinator Jason Lyon, presented them with a T-shirt and sports water bottle. These two athletes, along with several others, were nominated by their coaches and were selected by members of the Harpursville and Afton coaching staffs.

Morgan has been on the varsity field hockey team for four years. She has been a team captain for the past two years and has helped lead her team to a 13-3-1 record so far this season. As of November 8, she had recorded four goals and four assists. Morgan plays as a midfielder but also has been asked to play defense when needed. She does whatever is asked of her without hesitating or questioning. She has great speed and stick work and has taken on the role of helping her younger teammates to improve their skills. Morgan works hard during the season and off-season to improve herself. Additionally, she is taking several college courses to help prepare for college after graduation. She plans to play field hockey in college and will be a tremendous asset wherever she decides to go.

Brandon was a captain of varsity soccer team this season. He

Pictured (I-r): Teacher Jason Lyon, Brandon Hoover, Morgan Fleming and Kristy McWherter of Farmer's Insurance.

was a leader both on and off the field. During practices, he led drills and warmups to help motivate other members of the team. When something negative arose, he was always prompt in cutting it off before problems developed. During games, he would be used in various situations to neutralize the opposing team's top player. This put tremendous pressure on Brandon and he was always up to the challenge.

Congratulations to both of you. Your Hornet family is proud of you. Keep up the good work and we look forward to seeing your continued success in the future.

Educating future voters

By Kim Rusnak, social studies teacher

Hoping to instill civic virtues in the future voters of America, the social studies department held a Harpursville Jr. Sr. High School midterm mock election.

After researching the candidates and assessing their own political tendencies, students voted in the cafeteria using modern technology. Students were awarded with an "I Voted" sticker just as their adult counterparts were at the polling locations.

The results were as followed:

In the gubernatorial race, **Marcus Molinaro** came in ahead of the other candidates with 53 percent of the votes.

In the congressional race, **Anthony Brindisi** came in ahead of Claudia Tenney with 56% of the vote.

It was a wonderful experience for all of those involved in this exercise in

Swimming like a first-grader

By Andrew Senseney, swimming instructor

Welcome to the newest installment of "Swimming like a first-grader," where you'll receive the first steps to beginning swimming - assuming that you've never swam a day in your life.

If you've kept up with our "Swimming like a _____-grader" series, you'd know that our kindergarteners are setting the stage for essential safety and swimming skills. More so, this article is geared toward individuals who have never swam before, and who may want to try safe swimming in the future.

During those kindergarteners' five weeks of swim instruction (through ASEP at Afton's pool), we worked on mastering the most basic of basics. Ideally, our current first grade students are working on these basics right now - at the time that I am currently typing this. Again, beginning with safely entering and exiting the pool, everything stems from this or else you're not safe to swim in the first place.

Don't be afraid to ask the lifeguards about pool rules and dos and don'ts. Students then learn to hang onto the wall and put their face in the water to blow bubbles, in addition to "doggie paddling" and jumping in feet first. Beyond this, our first-graders learn to jump into the deep end of the pool, contingent on their swimming ability and whether they are wearing proper floatation devices. Again, ask your lifeguard.

Following this, students begin "seated diving" and "kneeling diving." While most people think of the Olympics when they think of diving, there are much easier and safer ways to learn diving. Remember folks, never dive into water that is nine feet deep or less. I know that this is tough news, but you it's better to be safe than sorry. Even in you are a "pro" in your own backyard pool, it only takes one slip when you go to jump/dive to end up with a head, neck, or back injury. Overall, if a first-grader can work up the courage to do a seated dive, so can you.

If you believe it - you can do it

In November, the Junior High Student Council officers attended the annual Vestal Middle School Leadership Conference. The officers this year are Sophie Konidis, Madison Fleming, Maddy Kelley and Kaitlynn Chapman.

The conference began with the main speaker, Diane Stento. She talked about how she never expected to be where she is today. Her daughter, Danielle, got into a huge accident when she was 21 because a drunk driver crashed into her. While her daughter was recovering in the hospital, the Stento family was offered a place to get away, sleep and eat free of charge. This was so helpful in helping the family cope with the tragedy of the accident, Diane was inspired to help others and pay it forward. The Danielle House was created in response to the need for shelter and emotional support for family members visiting seriously ill patients in Binghamtonarea hospitals. Over 9,000 families have been helped over the 17 years since the Danielle house opened. Three things that Mrs. Stento made sure we left knowing:

- Even through hard times, there is something good that will come out of any situation.
- If you believe it- it can be done.
- Your impact is often unknown.

If you are interested in helping the Danielle House, there are many ways to be involved. Students were encouraged to collect cleaning supplies, paper products, volunteer their

time (to rake, clean etc.), or contact them for more opportunities.

After our main speaker, we split up into groups and worked on teambuilding activities. This was a lot of fun to work with students from other schools and problem solve to come to a common goal.

Last, we each attended different leadership seminars. I attended a class where we learned about online resources that could help the Student Council promote activities, fundraisers and Homecoming.

There was also a seminar where we talked about our individual student council organizations. We compared our successes, some things we could have done better and also some

things we could do in the future. We found some similarities based on the way we do things and also learned new ideas.

The last seminar we wanted to mention was comparing music and leadership. Both music and good leaders can influence a large number of people to do something, usually something good. Also, good leaders can get people's attention with speeches and things like that, while music can do the same thing. We learned a lot about good leaders in this station and look forward to applying some of these things to the Harpursville Junior High Student Council.

We appreciate the opportunity to go to the Vestal Leadership Conference this year. We learned a lot of things to bring back to our council and were able to build new friendships with others students around Broome County.

A message from the elementary school principal

Greetings, families of W.A. Olmsted.

Our students have been working hard during the first semester of school. They have been busy in reading, writing and math workshops within their classrooms.

As the school year continues, please know that I am available for any questions or concerns you may have. It is important to me that our families are connected to our school. We had tremendous family turnout and support at our Fall Fest at the end of October. A sincere thank you goes out to Mrs. Parker, Mrs. Davy and everyone who made this wonderful day a success.

Again, on Grandparent's Day at W. A. Olmsted Elementary school, many family members of our students arrived at school ready to complete projects with our students. I was especially appreciative to watch our students work with grandparents, and I was delighted to meet many members of our community. I am looking forward to keeping the community school sentiment going over the next several activities planned here at school.

Our annual Santa's Workshop, sponsored by our district's new PTSA on December 6, gave students a chance to shop for small gifts for family members as well as participate in holiday activities. On December 18, from 5:30 – 6:45 p.m., there will be a "Winter Wonderland" activity night for our UPK through 2nd-grade students and families.

Grandparents Day at W.A. Olmsted Elementary

I want to take this opportunity to wish all of our families a wonderful and happy holiday season. Please keep in mind that I am here to support your children, so let's continue working together to make that happen.

Sincerely,

James DiMaria, principal W.A. Olmsted Elementary School

Jim DiMaria, principal

"The Farmers' Museum in Cooperstown enabled students to engage in activities that illustrate the technology of the era."

Cloe the goat visits Olmsted for Ag in the Classroom program

Cloe the goat recently paid a visit to W.A. Olmsted Elementary School.

Part of our ongoing Ag in the Classroom program, the two-month-old Cloe was a crowd pleaser as students learned about raising farm animals while enjoying the unique personality of the domesticated goat.

Pictured (I-r): Katherine Klecha, Cloe, Megan Truesdail.

First-graders enjoy reading session with Binghamton Devils teammates

While much of the discussion focused on the subject of professional hockey, the real "goal" of the visit was to stress the importance of improving literacy through good reading habits. Binghamton Devils teammates Eddie Lack (goalie) and Colby Sissons (defenseman) had little trouble keeping the attention of a group of fistgraders during a recent visit.

Pictured: (I-r): Goalie Eddie Lack #31 and **(R)** Defensemen Colby Sissons #5

Have you ever wanted to know what it's like to be a surgeon?

By Andrew Senseney, physics & science teacher

This month's edition of "Science with Mr. Senseney" is brought to you with inspiration from medical TV shows, such as "The Good Doctor," and it will step away from the traditional STEM challenges mentioned in the last edition of this newsletter.

Have you ever wanted to know what it feels like to be a surgeon? Currently in my classroom, students are learning how surgeons and medical professionals use sutures to close a wound. It should be noted that the instruments shown - hemostat and forceps (see photos) - can be purchased off internet sites such as Amazon, but are NOT sterile in any way, thus not safe or suitable for any real surgeries or first aid

due to the high likelihood of infection.

These instruments are typically used in hobbies and certain careers. For example, a car mechanic might use the "locking" feature on the hemostat to keep a tube clamped shut while

working on a car engine, similar to how a surgeon might keep an artery closed during surgery. Once students have become proficient in suturing a wound closed on a banana,

their skills as an
ER surgeon are
put to the test
with a timed
competition. Students

are challenged with suturing a given laceration in the shortest time possible, while using a minimum of 10 stitches.

Annamarie Goosley performs surgery on her "patient."

Given the typical cost of medical supplies to make this unit and experience realistic, basic supplies were improvised. A curved needle is necessary for getting the thread under the wound and closed. To be costefficient, C-needles were used, which are sewing needles used for embroidery on quilts or mattresses. Similarly, floss was used in place for suture thread. Additionally, for extra realism, students were taught how surgeons "scrub" for a surgery in order to be perfectly sterile.

Overall, I tried to provide an opportunity and glimpse into the field of medicine that I never had at the high school level.

P.S. My students bet me that I couldn't "take a selfie of them working and get it into the newsletter." #ChallengeAccepted

Picture (I-r): Andrew Senseney, Kailee Tyler, Sarah Peterson, Kerynn Stonier, Annamarie Goosley, Aubrey Cluck.

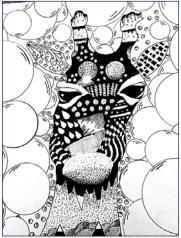

Students 'doodle their time away' while exercising artistic creativity

Zentangling is a relaxing and fun way to create beautiful images by drawing structured patterns. It's like doodling but cooler. Zentangling increases your focus and creativity while providing one with artistic enjoyment. Ms. McDonald's Drawing Class showcased their skills in both contour drawing and Zentangling by drawing animal outlines and then filling these outlines with unique and creative patterns. The results were awesome!

Makenna Lowe

If you've ever wondered where fairies live, now you know

This past summer, art teacher Ann McDonald and her summer school students created "fairy gardens." Students enjoyed designing and building these fun and fanciful domiciles. The project was an overwhelming success. With the reintroduction of The Creative Crafts class this fall,

McDonald took this as an opportunity to take the fairy gardens to a higher level. Not only did the class design and build their own fairy gardens, but they also crafted hypertufa planters to house the gardens. It was an inspiring experience from construction to completion.

Giving thanks - annual fall feast brings Harpursville community together

The Harpursville Central School District hosted its annual Thanksgiving Luncheon on December 15 in the elementary gymnasium.

The cafeteria staff prepared a feast that was deemed delicious by all. The student councils and national honor societies did an excellent job serving the administration,

faculty, staff and senior citizens who attended the dinner. As always, it was wonderful to blend all of these groups as we collectively gave thanks.

A special note of appreciation is given to the cafeteria and custodial staff who worked tirelessly to make this dinner a special event for all. (submitted by Kim Rusnak)
