

Local history inspires

**Cabin fever****Historic 'Lamphere's Cabin' honored with classic holiday favorite - graham cracker construction**

In 1885, the Lamphere family came to what eventually became the Town of Colesville. Local lore tells the story of the family erecting a small cabin in just a few days near a creek north of Harpurville. There they lived meagerly but happily for a few years until tragedy struck the family in January of 1888, when John Lamphere (the father) froze to death

on the plains as he went to gather provisions for the family.

In his honor, students in Colesville History class constructed replicas of the family's cabin using graham crackers, frosting, and candies during the holiday season.

## Letter from the superintendent

Dear residents,

Welcome to the second half of the 2019-2020 school year. I know it's a little bit of wishful thinking, but I always begin to "think spring" once we get into February and the second semester. It's hard to believe that we are a month away from the start of the spring sports season. Before you know it, we'll be seeing each other at the many culminating events that culminate our school year and celebrate the successes of our students. But, before we get there, there is plenty more work to do and we are ready for a great second-half of the school year.

As we look to the month ahead there are some exciting opportunities for our students on the horizon. First, our RoboHornets will be participating in the New York State VEX Robotics Championships in Syracuse. They are ready to compete and are well-positioned to earn themselves a spot in the World Championships again. Please join me in wishing the team the best of luck in their upcoming championship event. Similarly, our student-athletes

will be participating in their respective end-of-season league and/or sectional tournaments, too. Keep an eye on the sports schedule via Schedule Galaxy on the district website and, hopefully, you'll be able to get out to support our Hornet athletes. I know they love hearing the crowd cheering for them.

I thought a quick blurb about our upcoming new website might be helpful as well. The new website is almost ready to be launched and it looks amazing – wait until you see it! I trust that you'll find it much more user friendly with a streamlined version of the site. And, even better, the new version of the website works amazingly well with your smartphone. You will notice that it fits your phone screen perfectly and you'll only need to scroll up or down to see all of the tiles on the site. So, no more side to side scrolling and trying to figure out how to get around the pages. It's going to be great, so keep an eye out for the new website.

As always this time of the school year, our board of education and I have invited and encouraged district

residents to be a part of the budget development process. The improved fiscal condition of the district is the result of the collective efforts of all of us – residents, board members and school employees. Thus, it is imperative that we continue efforts to ensure that our schools continue to thrive. I encourage you to attend our budget development meetings in the next few months so that we can hear from you and so that you remain well-informed about the budget. Please be reminded that we will post all budget-related documents at the following

Michael Rullo,  
superintendent

address on our website: [www.hcs.stier.org/BudgetTaxInformation.aspx](http://www.hcs.stier.org/BudgetTaxInformation.aspx). As the budget process develops, the site will be populated with all things related to budget development such as our budget calendar, initial budget presentation, budget workshops, regular board meetings, the budget hearing, and voting date. Rest assured that as we navigate this annual process our number one priority remains our students. As always, we will work to ensure that the budget supports the educational opportunities our students deserve and that it's one our residents can stand behind.

Best wishes for the month of February. Please do not hesitate to contact me or the respective person within the school district if you have any questions or concerns. Thanks for all you do to support our schools!

Go Hornets! Yours in education,

Michael J. Rullo

**Go Hornets!**

### BOE meeting calendar

**Wed., March 11, 2020** board meeting 6 p.m.

**Thurs., April 2, 2020** – budget workshop only 6 p.m.

**Mon., April 20, 2019** – board meeting including BOCES vote, Harpursville CSD proposed budget adoption 6 p.m.

**Wed., May 6, 2020** – budget hearing only 6 p.m.

**Tues., May 19** – budget and BOE member vote 1:30-8 p.m.

**Wed., May 20, 2020** – board meeting 6 p.m.

**Wed., June 17, 2020** - board meeting includes tenure celebration

Meetings are held in the Jr/Sr library room 203

Votes are held in the elementary new gym – please follow the signs and use farthest entrance to vote

## School board seat up for election in May

One seat on the Harpursville Central School District Board of Education will be up for election on May 19. The one seat, currently occupied by Michael Rhodes, whose five-year term ends June 30, 2020, is a five-year position.

Please consider attending a free public workshop on March 18 offered through Broome-Tioga BOCES for prospective board members (see page 4) Contact the district clerk to reserve your seat at 693-8112.

## District communication guidelines

Frequently, parents and other community members request help in knowing the best way to communicate with the school. The chart below will serve as a helpful resource. By contacting the following people in the prescribed order, you can be assured that your questions will be answered.

- Panel of current School Board Members
- Question-and-Answer Period
- Take-Home Material

## TOPICS

- Challenges in dealing with special interest groups
- Expectations of colleagues and administrators
- Legal responsibilities and election procedures

*Pre-registration recommended  
Contact your District Office  
693-8112*

Dear Harpursville community,

We have lots to celebrate at HCS. Our students and staff are busy learning and working together all the time.

Mark Muller's Real World Science students have been working on lessons that they've been teaching to the students at WAO. At the elementary school, there are five grow towers

that allow both our high school and elementary students to learn about aeroponic technology to grow plants. Students have planted different kinds of lettuce and herbs without soil. High school students were recently teaching younger students about vermiculite and helping them to use it as they

were planting seeds. Both older and younger students enjoy working together and have learned so much about using grow towers to accelerate the growing process of plants.

Monday through Thursday each week our K-6 students participate in our after-school program. The after-school program provides dinner each afternoon and a variety of activities for students to participate in. This month our second graders are learning how to collaborate through different games and building activities. It's not easy to reach

agreement on how to do something or to negotiate when you disagree. They are working hard at becoming good partners and having fun doing it.

Our kindergarteners are becoming awesome readers! Learning to read is really exciting. There isn't any better experience than sitting next to a new reader. They have been learning about the powers they have as readers. If you have the chance to sit next to a new reader you will see some of their powers, like pointer power and picture power in action.

Pam Horton,  
*director of instruction*

In December, our WAO fifth graders hosted a holiday night for families. They did a great job setting up for this event, greeting families, serving food, helping younger students make ornaments, and then cleaning up. They learned a lot about planning, organizing and being friendly and helpful. We are really proud of what great students we have!

Each day our students receive "Hornet Awards" at the elementary school.

They are celebrated for being a good friend, making good choices, doing great work, improving and helping others. Our students love these awards and are so proud to be a Hornet.

We are proud of all of our students at HCS and continue to look for ways to celebrate.

The groundhog says we are heading for an early spring. That's cause for celebration, too.

All my best,

Pam Horton

## Collaboration is the 'thing' in stage setting

Art teacher Ann McDonald's sculpture class was eager to help Mrs. Webster design and paint the backdrops for this year's play, "The Misadventures of the Musketeers."

Students in ceramics class are also jumping on board to make clay food for one of the scenes and props for the boat scene.

The play is scheduled for March 6, 7 and 8.

Pictured (l-r): Amber Kashmar, Madison Fleming

Alana Nannery

Chelsea Merrill

# The Misadventures of the MUSKETEERS

Please join the Harpursville In-Motion Arts Guild for its comedic performance of "The Misadventures of the Musketeers."

Show times are ;

- **7 p.m. Friday, March 6**
- **Saturday March 7,**
- **3 p.m. Sunday, March 8**

Ticket prices are \$5 for adults and \$3 for students and children.  
Come and enjoy the show!

## Harpursville goes 'green' with science lesson

*By Mark Muller, science & physics teacher*

The science of hydroponics offers many opportunities for activity-based instruction and the use of critical thinking skills.

Here at Harpursville CSD, through the generosity of our administrators, teachers and staff (Stephanie Frisbie, Francine Munson, Cindy Balles, Judith Salton, Dan Northrop, Jennifer McPherson, Shannon Merrell, Laura DiRosa, Pam Horton, Kris Conrow, James DiMaria and Josh Quick), our students can enjoy investigating many scientific principles and applying them in a practical manner.

We explore hydroponics through an interdisciplinary approach that takes us through the history, development and principles of hydroponics. High school students partner with elementary classrooms to learn and guide students through general science, introductory plant science and technology. As we continue, we address plant and environmental science issues. In our real-world science class, we learn to combine society(history), science (life, physical and earth science principles) and technology (common hydroponic systems) and how they influence one another, and then use this understanding in everyday decision making.

A special thank you to our school resource officer, Nicholas Zakrajsek. We are working hard to learn about the careers available to our students in education, agriculture, science, business, technology and the food industry.

## Guest speakers liven up social studies class

Students in Kim Rusnak's social studies classes were treated to guest speakers who covered a variety of topics over the past several months.

Harpursville alumnus Amedo Cimini and his wife, Carol, spoke to the Colesville History students about the Rockwell Hurlburt Equestrian Troupe and its ties to the hamlet of Unitaria. They also discussed the Binghamton University archaeological survey that took place on their property in that hamlet for several summers. They located a variety of artifacts linked to a post office and rural life.

In addition to the Cimini's well-received presentation, School Resource Officer Zakrasjak also visited our U.S. History and Government classes, where he did a presentation and question-and-answer session on the relevance of the Fourth Amendment in students' lives. In addition, he spoke to the junior high STEAM classes about survival skills and tools.

The students are extremely fortunate to have community members who possess this wealth of knowledge and are willing to share it with them.

School Resource Officer Nicholas Zakrasjak speaks with U.S. History students

## Students excel at Winter All-County Music Festival.

On January 25, music teacher Nicole Cole and 14 Harpursville students attended the Winter All-County Music Festival. As the bus pulled away at 7:30 a.m. headed for Unadilla Valley High School, students prepared themselves for seven hours of rehearsal and a concert at the end of the day to show all they had learned.

The SSAA (soprano 1, soprano 2, alto 1, alto 2) choir consisted of 12 Harpursville ladies joined by 114 other students from Greene, Norwich, Oxford, Unadilla Valley, Bainbridge-Guilford, Sherburne-Earlville, Afton and Sidney. The TTBB (tenor 1, tenor 2, baritone, bass) choir featured two Harpursville men joined by 30 other students from various school districts.

What a great show they presented.

**Pictured (l-r): Front -** Lily Barriger, Karlee Gross, Zachary Turck, Elizabeth Ives, and Jeanette Steele. **Back -** Ben Williams, Karina Seeley, Yasmine Warner, Majesti Brown, Sara Williams, Addison Lawrence, Autumn Bolster, Abby Affy, and Dylan Faiella.

Greetings, W.A. O. Elementary School community parents,

As you read this letter we will have concluded our first community school forum on February 5. As a community, it is our goal to come together in a solution-oriented forum to help build upon the strengths of our school. As a school, we are looking for community participation in the school improvement process. We want community members to be a part of the solutions that will help move our school and community forward.

These meetings are designed to “dig into” the specific areas contained in our school improvement plan. Each meeting, focusing on a specific tenet of the school improvement process, will highlight the work being done in each tenet area and will provide an opportunity for stakeholders to bring solutions-oriented ideas to the conversation that will accelerate our growth and success. Each of these meetings will take place on the following evenings from 6 – 7p.m., at which time we will have discussion around key school areas:

**March 4 - Effective Systems Organization  
and School Leadership**

**April 1 – Curriculum**

**April 29 – Engaging and Effective Instruction**

**May 20 – Social-Emotional Learning**

**June 10 – Parent and Community Engagement.**

I would like to have as much participation as possible, so please plan to attend and become an active member in our school improvement process. If you have any questions about the contents of this letter, please do not hesitate to contact me through the school.

Jim DiMaria,  
elementary principal

At this time, I also would like to continue to outline the importance of our school goal to reduce the chronic absence rate in our school by highlighting information presented from the “Attendance Works” website ([www.attendanceworks.org](http://www.attendanceworks.org)).

*While chronic absence presents academic challenges for students not in class, when it reaches high levels in a classroom or school, all students may suffer because the resulting classroom churn hampers teachers’ ability to engage all students and meet their learning needs.*

*The good news is that our work throughout the country shows us that chronic absence is a solvable problem. A comprehensive approach that begins with engaging students and families as well as preventing absences from adding up before they fall behind academically.*

*Jim DiMaria*

Principal  
WA Olmsted Elementary School

## Museum offers 1840s 'makerspace' for 21st Century students

U.S. History and Government students took a trip back in time to 1840s Upstate New York during a trip to the Cooperstown Farmers' Museum.

Each student got to choose a workshop from a list of interesting offerings, including life on the farm, blacksmithing, pharmacy, sewing, and reverse glass painting. All of them involved hands-on activities that produced items ranging from apple fritters to lip balm to cinch bags. After lunch in the barn, students took a tour that covered the overview of small town and rural life from the 1840s, and were then treated to a carousel ride on carved wooden animals indigenous to New York state.

Many thanks to the chaperones and museum staff who make this trip a success year after year.

## Books provide inspiration for young artists

Our first grade after-school enrichment program students had fun with art teacher Ann McDonald during the holidays and into January.

They read books and made crafts based on the books. They made reindeer headbands, gingerbread paper bag puppets, paper plate penguins and mittens inspired by Jan Brett's book, "The Mitten."

*Jameson Daly with his penguin*

*Students show off their latest creations: gingerbread puppets*

## Building projects help build social, communication skills

Second graders in our after-school STEAM program had a lot of fun learning while using straw connectors.

They could follow a plan to build a bridge, rocket ship, house or tower. If they didn't want to follow a plan, they made up their own unique contraption.

Working together helped develop these students social and communication skills as well as their STEM skills.

## Winsor Acres is 'the place to be'

On December 18, students in Mrs. Buckler and Kim Rusnak's STEAM class took a field trip to the Winsor Acres Farm.

During the tour, Harpursville alumnus Stephen Winsor taught the students about the technology of feed as well as selective breeding and its impact on milk production. The students were given a tour of the farm, which included the birthing barn, the feed area, the feeding barn, the milk barn and,

finally, the calf barn, which was their favorite.

The students were attentive, appreciative and loved both the dogs and cows on the property.

A huge shout of thanks for the wonderful tour provided by Stephen Winsor and to board member Michelle Noyes, who arranged the visit.

## **School board seat up for election in May**

One seat on the Harpursville Central School District Board of Education will be up for election on May 19, 2020. The one seat, currently occupied by Michael Rhodes, whose five-year term ends June 30, 2020, is a five-year position. Please consider attending a free public workshop on March 18 offered through BT BOCES for prospective board members. Contact the district clerk to reserve your seat at 693-8112.

You must meet certain basic qualifications to run for school board in New York state. You must be:

- *A U.S. citizen*
- *At least 18 years old*
- *A qualified voter in the school district*
- *Able to read and write*
- *A resident of your district continuously for one year before the election.*

Not sure if running for the school board is right for you? Visit the New York State School Boards Association link and read about the experience: [www.nyssba.org/clientuploads/nsbmx/](http://www.nyssba.org/clientuploads/nsbmx/)

Those interested in seeking the position can obtain petitions at the Harpursville Central School District Office. Petitions must be returned to the school district's clerk's office by 3 p.m. on April 20, 2020.

The school budget and board member election day is May 19, 2020.

**\*Please use the far elementary gym entrance to cast your vote from 1:30-8 p.m. on Tuesday, May 19, 2020. Thank you!**
