

## New course has students 'flying high'

While many students older than 16 may be working to get their driver licenses, some students at Harpursville Central School District are working to earn their pilot licenses.

Benjamin Williams completed the elective drone course and subsequently passed the FAA Small Unmanned Aircraft Pilot Commercial License exam.

He is now qualified to operate a business with drones.

Congratulations!

Drone pilot Ben Williams at the controls

## Letter from the superintendent

Dear residents,

This winter has packed a wallop. Did you see in the local news that the greater Binghamton area is leading all cities across New York for the most snow this season? That's a contest without a winner as far as I'm concerned! In all fairness, we couldn't be happier for our winter enthusiasts. But, as the saying goes, "All good things must come to an end." My enthusiasm for winter has to do with it going away and after all the snow, cold, school delays, and school closings, I am ready, and I am guessing many of you are too. As we move into the month of March, let's THINK SPRING!

As you know, the winter weather has had quite an impact on the number of snow days that we've had to use this year. Thankfully, officials at the state level have allowed schools to pilot the use of remote learning on days that would normally result in an emergency closure. This is truly helpful this year as we'll be able to implement remote learning days moving forward instead of having to use additional snow days and then "take back" vacation days. Maybe we'll get lucky and we won't have any more winter weather this year. But as we all know, history is not on our side and, so, we are ready to implement remote learning days on any given morning, as needed, instead of having to close school and impact the planned vacation days between now and the end of the school year. Please be reminded that announcements will continue to be made using our regular communication channels: the all-call system, email, our district app, the website and local media.

I do want to take a moment to thank everyone who voted on our recent bus proposition, which resulted in a positive outcome. It is critical that we maintain a top-notch fleet of buses for the various transportation needs of our students. On behalf of the board of education and myself, thank you for your continued support.

One of the highlights of the recent past is the fact that athletics was able to resume this past winter season. Our bowlers were able to enjoy a nice, long season and our basketball players were finally able to get on the court so they could enjoy the experience of being part of a team and some healthy competition with a few other schools. While the season was short, it was awesome to see our student-athletes giving their best effort and having the opportunity to take part in the activities they love and that are so much a part of the school experience for many. Furthermore, it was heartwarming to know that our senior athletes and their

parents were able to have a senior game, getting the recognition that they all deserve. We are looking forward to the upcoming "fall 2" season, which will take place March 7 through April 25, followed by the spring season from April 26 until the end of the school year. As a reminder, visit our athletics webpage for the livestream links to many of our contests. We wish our Hornets athletes all the best with their seasons!

Michael Rullo,  
Superintendent

As always with this time of the school year, the board of education and I invite and encourage district residents to be a part of the budget development process. The strong fiscal condition of the district is the result of the collective efforts of all of us: residents, board members and school employees. Thus, it is imperative that we continue those efforts to ensure our schools continue to thrive. I encourage you to attend our budget development meetings so that we can hear from you and so that you remain well-informed about the budget. Please be reminded that we will post all budget-related documents at the following address on our website: <http://www.hcs.stier.org/BudgetTaxInformation.aspx>. As the budget process develops, the site will be populated with all things related to budget development, including our budget calendar, initial budget presentation, budget workshops, regular BOE meetings, budget hearing, and voting date. Rest assured, our number one priority remains our students as we navigate this annual process. As always, we are committed to developing a budget that supports the educational opportunities our students deserve, and one that our residents can stand behind.

As always, please do not hesitate to contact me or my administrative staff if you have any questions or concerns. Best wishes for your health and safety and thanks for all you do to support our schools.

Yours in education,

Michael J. Rullo

**Go Hornets!**

## Three school board seats up for election in May

Three seats on the Harpursville Central School District Board of Education will be up for election on May 18, 2021. Those seats, currently occupied by Michelle Noyes, John Dattoria and Jessica Hartman, are five-year terms that will run July 1, 2021 through June 30, 2026.

Those interested in running for the board are urged to consider attending a free virtual (Zoom) public workshop for prospective board members at 7 p.m. March 18, 2021, offered through Broome-Tioga BOCES. For questions or to make reservations for the virtual public workshop, contact the board clerk at 693-8112.

## District communication guidelines

Frequently, parents and other community members request help in knowing the best way to communicate with the school. The chart below will serve as a helpful resource. By contacting the following people in the prescribed order, you can be assured that your questions will be answered.

## PSAT results coming soon

Scores for students who took the PSAT at school in January are expected to be released by mid-March. Students will be notified by the college board when their scores are available if they

provided an email address at the time of testing. Otherwise, hard copies of score reports will be available in the guidance office. Students are encouraged to set up a free account at [www.collegeboard.org](http://www.collegeboard.org)

and link their PSAT results to access free, customized SAT practice. The college board is an invaluable resource for college planning, so be sure to get your account set up now!

## SAT exams planned

The SAT is one of two widely-recognized college entrance exams. We will be administering the SAT here at school on Tuesday, April 27. The test can be given only on this date and must be done in person. As with the PSAT last month, we will make arrangements for students who are normally remote on Tuesdays to get to school for the test, if necessary. While not all colleges require SAT or ACT

scores, the recommendation is for any college-bound student to take the SAT during the spring of their junior year.

If you are interested in having your junior take the SAT at school, please call or email Mrs. Slesinsky with your child's name so a test book can be ordered. The cost for the test is \$52, although students who meet the criteria set by the college board can be given a fee

waiver. Checks should be made payable to "Harpurville Central School" and dropped off or mailed to the guidance office. The deadline for ordering tests and submitting payment or requesting a fee waiver is April 1.

Contact Mrs. Slesinsky with any SAT related questions:  
[kslesinsky@hcs.stier.org](mailto:kslesinsky@hcs.stier.org) 607-693-8106

## Not all liquids are the same

*By Barb Fenescey, science teacher*

In 8<sup>th</sup> grade Physical Science class we have been studying density. Well, we all know that some things float in water and some things sink. But...what about liquids?

Students predicted which liquids would be more dense than water, which is the science standard density of 1 g/mL, and which liquids would be less dense than water. They then built "liquid density towers."

Try building a density tower at home! We had fun investigating the density of liquids and you will, too.

Pictured: Density towers created by student Marissa Loveless

## College acceptances recognized

Congratulations to **Taylor Rutherford**, who was accepted at the University of New England, Paul Smith's College, Colorado State University and Unity College. Taylor is planning to pursue a career in wildlife biology.

Congratulations to **Shyanne Stilson**, who was accepted into the nursing program at SUNY Brockport, Russell Sage College, Elmira College and St. John Fisher College.

## Students turn teacher's odds & ends into recycled art

Art teacher Ann McDonald is known for keeping everything, a habit that enabled her 3D Studio Art students to exercise their creativity and skills to create a truly interesting assortment of "Recycled Robots."

## Letter from the elementary school principal

As 2021 continues under the protocols of health and safety precautions, it is important to look at the accomplishments we have attained through the hard work of our students and staff.

Our classrooms have adjusted to a flexible learning model, where both remote and in-person students are actively engaged and are participating in learning activities. Classroom teachers, the school nurse, support staff, secretaries, counselors, and all other staff played an important role in the success of this school year.

W.A. Olmsted Elementary School has organized a parent focus group that participated in our first meeting in early February. We discussed the need for a parent/guardian survey so we can gain a deeper understanding of the needs of our school community and more effectively communicate with families. This survey will be available in a digital format soon, so please be on the lookout. If

you are interested in joining this focus group, please contact the elementary school office.

Our school community is proud of the work that we have done this school year, and we will continue to work hard to ensure that all of our students continue to make strong academic progress.

In closing, I thank all of you for your ongoing support of our children and our school.

*Jim DiMaria*

Principal

## Sports fans take notice

Harpursville Hornets basketball is back for the winter 2021 season!

Home basketball games for the Hornets can be viewed by clicking the link posted on the district website: [www.hcs.stier.org](http://www.hcs.stier.org).

## Letter from the Director of Instruction

Dear Harpursville families:

Almost a year has passed since we started facing the fears and frustrations related to Covid-19, and I can't help but do some reflecting.

Our students, teachers and families have been challenged in so many ways. Figuring out how to 'do school' was no exception. These challenges required our staff to quickly learn ways that technology could help them work with kids. Our students and families had to figure out how to learn from home. None of this was easy. We had never relied on technology for 100% of our instruction before. Teachers started learning immediately about apps and platforms that would support the kind of learning students needed to do at each grade level and for each course. Families were patient and supportive as we tried lots of different ways to work with technology. We quickly found out that many of our students needed i-Pads or Chromebooks to connect with the school and to do their work. We started to hand out devices when our families came to school to pick up food or to get other kinds of school supplies. When families couldn't come themselves, neighbors, school staff and community members dropped off food and devices. Zoom became a household word for all of us. It's the way we were able to see our students (and families) each day and for kids to continue to learn.

As we moved into summer, our summer program had to be offered completely online. Again, we had to start from scratch and think about how we could offer kids and families time away from computer screens to do some hands-on activities for a bit. Our teachers designed ways for students to participate in science experiments from home, build kites, to sing and listen to stories, to be part of their own 'virtual' classrooms where they could explore new activities each day. Some of our varsity volleyball and softball players taught online clinics for our young students using video and Zoom. Technology enabled students to learn so many cool things even though students couldn't physically come to school. Throughout the summer, our Community Schools Coordinator, administrators, bus drivers, food service workers, custodians, staff, teachers, friends, neighbors and community members continued to work together to help one another in all kinds of ways.

Moving into fall, we were able to plan for some students coming back in person, but not everyone at once. In order to make sure every environment our students encountered was safe we had to plan for a hybrid model of instruction.

We also wanted to honor the feelings of our families by giving them choices so they could make the best decisions for themselves. Hybrid and remote instruction provided some new challenges, for sure. At this point the partnership between our families and our school staff was strong. Our families were working so hard to figure out day care, home and school schedules, and the use of technology while our school staff was working hard on ways to support the necessary learning for our students, schedules that would work for families, and ways to support the use of technology for families.

Pam Horton,  
Director of Instruction

Now, mid-way through the year, we have been able to support more students physically attending school more often. Our teachers continue to learn more about how to incorporate technology that enables students to be more engaged whether they are at home or at school. Our support staff attends Zoom meetings with students to support their learning every day. Our bus drivers and food service workers keep preparing and delivering food to our families. Our families continue to make sudden changes due to quarantines and remote learning directives and handle Zoom and device issues. Partnerships continue to form and grow to support the needs of our kids.

We have faced so much this year, but we've learned so much, too. We could not be more grateful to be part of such an amazing community that continues to support each other in every way possible. Our school staff spends endless hours doing the work that supports our students and families. They demonstrate every day their commitment to our students. As we move toward the last half of this school year and see some aspects of 'normalcy' sneak back into our lives, I can't help but notice how much more I appreciate simple things like watching kids play basketball (even if it is on YouTube). I hope each of you are able to find some of these same simple things for yourselves.

Thank you for all you do,

Pam Horton  
Director of Instruction

## Board of education meeting schedule set for remainder of 2020-2021 school year

**March 10, 6 p.m.**

**April 19, 6 p.m.**

**May 18, 1:30-8 p.m.**

School budget and Board  
member election  
- *elementary gym*

**May 5, 6 p.m.**

Budget hearing

**June 16, 6 p.m.**

All meetings are held in the Jr. Sr. High School Library, room 203, unless otherwise noted. Please contact Tabby Rhodes, district clerk, if you need special accommodations to get into the building for meetings. All dates are subject to change. Please check the district website in advance of ALL meetings for any changes to in-person meetings. The governor has been extending the open meetings provision on a month-to-month basis, so this is the best information available as this newsletter is being printed. Thank you!

# Thank you,

## Harpursville Central School District residents

The February 16 transportation referendum was approved by district voters 50 to 13. The referendum authorized the purchase of school buses at a maximum estimated cost not to exceed \$335,000, including incidental equipment and expenses. Ninety percent of the cost will be covered through state aid.
